I don't have much of a reason why I picked this one up I guess I was just bored and wanted something simple to work on.

Thanks to nash for redrawing the two-page cover spread without you this wouldn't have been picked up for another six months lol

The second chapter will come out, maybe not, well, damn it's not, it's pretty late, mine is, and yes, I do have the plans to the second chapter on this - sayon
